

Collin County Genealogical Society

Tool Time with FamilyTreeDNA

Wednesday, October 9, 2024

Presented by
Jim Brewster

You have a Family Finder test, but now what do you do with it? Come on a journey of discovery as we showcase FTDNA autosomal tools and tricks. Learn how to understand your match list and connect the chromosomes in this fun and informative lecture.

Even if you DNA tested elsewhere do not miss Jim’s presentation. You will find the knowledge you gain has universal value in being applicable to performing genetic genealogy research, regardless of the company you tested at. Also, if you tested elsewhere and didn’t know, you can transfer your raw data from that testing site to FTDNA for free, gaining new matches, and optionally, and for a small fee unlock these tools!

CCGS Meeting
Wednesday, October 9, 2024 – Zoom & In-Person
