

Collin County Genealogical Society

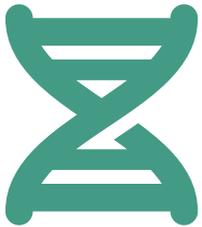

Join our unique, collaborative learning experience
to explore technology-driven genealogy.

All skill levels welcome!

Next Meeting

***“Bring your laptop or
tablet and a friend!”***

Topic: DNA: The Genetics Side of Genealogy

Whether you're new to DNA or an experienced tester, join us to explore tools and techniques for unlocking family histories and mysteries.

Through case studies, we'll cover successes and works-in-progress using the three key DNA tests in genealogy: autosomal (atDNA), Y-DNA, and mtDNA. Learn the benefits of each.

When: Saturday – September 13, 2025 @ 11AM

Where: Haggard Library – Genealogy Center (lower level)

by Zoom: <https://us02web.zoom.us/meeting/register/Ho9ET2qqQRaMvNMnExXbSg>

Upcoming – November 22nd

Software: What's Available, Tips & Trick

Discover software that brings your family story to life! We'll compare popular family tree programs, explore web search tricks for hidden records, and discuss how AI can draft narratives or analyze data to enrich your research.
